

# VELTZ T7L

MADE IN KOREA

2022  
NEW

## The qualified 3D printer for dental environment

The T7L is a 3D printer with excellent printing precision with a reasonable price. For consumer convenience, the newly patented build plate can be calibrated with one touch and the modular LED kit can be replaced quickly and easily. Also, the open material system allows you to use a wide variety of materials.

### Features

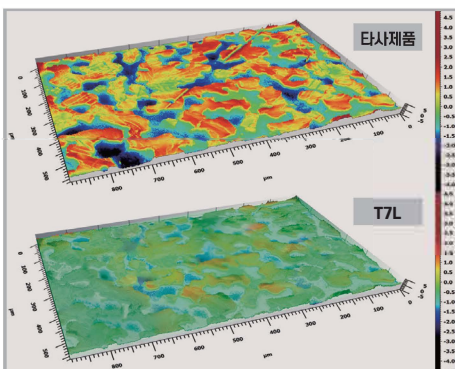

- Super-fast printing speed
- Excellent precision
- Masking technology (Patented)
- One touch build plate calibration
- Open material system
- Long life and easily replaceable LCD module

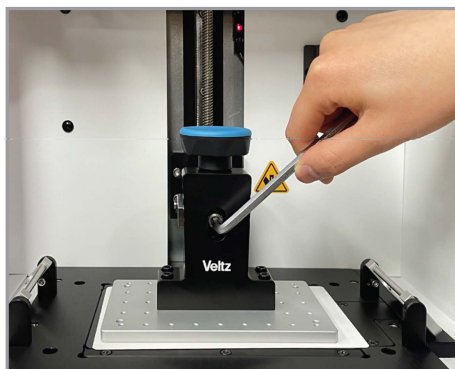

### Specifications

<b>Light source</b>	MONO LCD	<b>Layer thickness</b>	25 ~ 200 um	<b>Dimensions</b>	300 X 385 X 616 mm
<b>Resolution</b>	50um (X,Y)	<b>Max. Build size</b>	128 X 81 X 90 mm	<b>Weight</b>	16 kg

Excellent UV light uniformity with Mask file technology

Easy and fast build plate calibration (Patented) "1min"

Self-replacable high UV transmittance membrane

Reliable / simple / compatible

# VELTZ MP300

**High-speed curing machine temporary tooth bleaching function**

## Specifications

Function	UV curing(405nm)
Technology	LED Lamp
Chamber size	250 X 150 X 80 mm
Dimensions	294 X 481 X 322 mm
Weight	12.4 kg

## Features

- Super fast curing system(1~5mins)
- Bleaching mode equipped (Discoloration)
- Open material system
- Uniform post-curing quality with advanced LED array
- Guaranteed LED life span with temperature optimization design

# VELTZ MC100

ALL IN ONE SYSTEM

MIXING HEATING CLEANING

**Mixing & heating, and Cleaning One machine does it all**

## Specifications

Function	Mixing & heating, Cleaning
Technology	Magnetic, Tornado
Dimensions	150 X 210 X 322 mm
Weight	2.4 kg

## Features

- Multiple functions in one device
- Mix materials at optimum temperature
- Self-designed motor enables mixing of high viscosity resin
- Increase print strength by tornado washing method
- Special washing tray for easy cleaning
